

FUJIFILM Healthcare Americas Corporation

FUJIFILM Healthcare Americas Corporation is an International Association for Continuing Education and Training (IACET) authorized training center and is authorized to issue the IACET CEU's

## 2023 Service Training Schedule and Training Agreement

The FUJIFILM Healthcare Americas Corporation (HCUS) Service training schedule for 2023 is presented by quarter. **Page 2 includes course prerequisites and pricing.** The schedule shown is for the period from July 1<sup>st</sup> through December 31<sup>st</sup> 2023.

**Disclaimer:** All dates and fees are subject to change based on resource availability as determined by HCUS management.

**Registration is not final until you receive a confirmation e-mail from HCUS.** HCUS is not responsible for costs associated with travel or lodging in the event a course has been rescheduled.

If a scheduled class is cancelled by HCUS or the registrant, students can be rescheduled to the next available or next most convenient date. **No refunds will be issued.**

**Please review the prerequisites for the classes you wish to attend (see page 2).** If the requested class has prerequisites, the prerequisite classes must be completed before you can attend the class you ultimately wish to take. This rule applies unless you have specific confirmation of a waiver or temporary waiver of the prerequisite course through the training team.

The Customer Service Training Agreement (CSTA) is on the last page. Please complete the form, including your signature as you will be asked to provide this before attending class.

**To browse for training dates and for self-registration, use the following link.**

Product/Course Name	Course No.	RECOMMENDED PREREQUISITES	DAYS CLASS BEGINS AND ENDS		Cost
			WEEK 1	WEEK 2	
FDR 3000 AWS Console Introduction	870002593	X-Ray Basic Online training	Distance Learning		\$ 1,500.00
Cristalle Mammography	800044613	X-ray Basics Online training, FDX Console	MON to THU		\$ 7,500.00
FDR Biopsy 1000/2000	800045011	Aspire HD, HD Plus or Cristalle Required	TUE to THU		\$ 7,500.00
ACR DM QC testing for Aspire Cristalle	870002540	Aspire Cristalle Required	TUE to THU		\$ 7,500.00
FDR D-EVO Series FPD's	800017700	FDX Console and X-Ray Basic Online training	MON to THUR		\$ 7,500.00
FUJIFILM LONG PANELS	800046428	X-ray Basics Online training, FDX Console, and DEVO	MON to FRI		\$ 7,500.00
FDR FLEX (Online training)	N/A	X-ray Basics Online training, FDX Console, and DEVO	Online training		\$ 1,500.00
FDR Clinica Floor Stand and Clinica X	800046429	X-Ray Basics, FDX Console, and Fujifilm CR Readers	TUE to THU		\$ 7,500.00
D-EVO Suite II	800042900	X-ray Basics Online training, FDX Console, and DEVO	MON to THU		\$ 7,500.00
D-EVO Suite FS	800044614	X-ray Basics Online training, FDX Console, and DEVO	Online training		\$ 1,500.00
D-EVO Suite FSx/OTCx	800049898	X-ray Basics Online training, FDX Console, and DEVO	MON to THU		\$ 7,500.00
Visionary Suite	800046430	(X-ray Basics Online training, FDX Console and DEVO	TUE to FRI	MON to THU	\$ 7,500.00
Persona U	870001714	X-ray Basics Online training, FDX Console, and DEVO	MON to THU		\$ 7,500.00
FDR GO and Go Plus	870000089	X-ray Basics Online training, FDX Console, and DEVO	MON to FRI		\$ 7,500.00
FDR Aqro	800046897	X-ray Basics Online training, FDX Console, and DEVO	TUES to THU		\$ 5,000.00
DRYPIX 2000	800042897	N/A	TUE to FRI		\$ 7,500.00
DRYPIX 4000/5000/7000	800009225	N/A	MON to FRI		\$ 7,500.00
CR Readers (Carbon and XG5000)	800044621	X-ray Basics Online training and FDX Console	MON to FRI		\$ 6,000.00
FDX Console	800019303	X-Ray Basics Online training	MON to THU		\$ 5,000.00
Persona C Mobile Surgical C arm	870001401	X-ray Basics Online training	Online training		\$ 3,000.00
FUJIFILM Mobile Surgical C-arms	870001713	X-ray Basics Online training	MON to FRI		\$ 7,500.00
Persona R/F	870001521	X-ray Basics Online training and DEVO Suite II	MON to FRI		\$ 7,500.00
DICOM Troubleshooting (CR/Laser)	N/A	X-Ray Basics Online training and Fujifilm CR Readers	MON to FRI		\$ 7,500.00

Many of our classes begin on Monday at 9:00 AM and end at Friday at 4:00 PM unless otherwise specified in your confirmation e-mail. For any classes that span 2 weeks, the Monday start time is 9:00 AM on week 2. Please see your email confirmation letter for details. Online Training denotes Computer Based Training hosted on our Learning Management System (LMS).

## COURSE DESCRIPTIONS

### **FDX Console - Course # 800019303 - 2.6 CEU's awarded**

**(Recommended Prerequisites: Basic X-ray Training or equivalent field experience)**

This course will provide training on Software Installation, Configuration, Setup, Network Configuration and Image Processing for Synapse as they pertain to the FDX Console. Image Acquisition & Distribution, User Utility & Service Utility Functions and DICOM Tag Edit Tool are among the numerous subject matters discussed and applied. (Classroom Lecture/PowerPoint and Hands-On Lab, Written Test).

### **FDR 3000 AWS Console Introduction - Course # 870002593 (Live Distance Learning)**

This course is intended to teach the trainee basic operations of the FDR-3000AWS application, understanding of key service utility settings for mammography, and how to upgrade the FDR-3000AWS application. All facets of the training include hands-on practical lab practice as well as theoretical knowledge in the aforementioned areas. (Online Lecture/PowerPoint and Lab, Written Test).

### **Fuji CR Reader Units - Course # 800044621 - 2.6 CEU's awarded**

**(Recommended Prerequisite Training: FDX Console)**

This course provides an overview of the Fuji FCR Carbon, XG5000 and the ClearView CS. Topics include: Machine Description, Software Control, Installation, FDX Console Configuration, Image Plate Handling, Patient Registration, Image Data Flow, Client-PC Software, Hands-On Subassembly Removal & Reinstallation, Parts Replacement, Calibration, Troubleshooting and Preventive Maintenance. (Classroom Lecture/PowerPoint and Lab, Written Test).

### **FDR D-EVO Series FPD's- Course # 800017700 - 2.6 CEU's awarded**

**(Recommended Prerequisite Training: FDX Console)**

The purpose of this course is to provide working knowledge geared toward installation, configuration, calibration, troubleshooting and maintenance of the D-EVO and D-EVO 2 products including the various peripheral components associated with them. The course curriculum will also provide details for setup of the Interface Box and FDX Console settings required to connect to both.

### **FUJIFILM LONG PANELS - Course # 800046428 - 2.0 CEU's awarded**

**(Recommended Prerequisite Training: FDX Console, FDR DEVO Series FPD'S)**

The purpose of this course is to provide working knowledge geared toward installation, configuration, calibration, troubleshooting and maintenance of the FDR D-EVO GL, G80i, and Long Tail products including the various peripheral components associated with them. The course curriculum will also provide details for setup of the FDR Flex and FDX Console settings required to capture FDR D-EVO, scoliosis and long length images.

### **FDR Aqro - Course # 800046897 – 1.2 CEU's awarded**

**(Recommended Prerequisite Training: FDX Console and FDR DEVO Series FPD'S)**

The FDR Aqro course is designed to provide a system level approach to Digital Radiography Mobile X-Ray system installation and maintenance. We start with an overview of the system design, and train the engineer to install and setup the X-Ray System. For system maintenance, our training and lab work covers complete system adjustments, alignments, and calibration, fault isolation to the Field Replaceable Units, reviewing the battery removal and replacement procedures, interfacing the FDX console to the hospital network and preventive maintenance. (Classroom Lecture/PowerPoint and Lab, Written Test).

**FDR GO and FDR Go Plus - Course # 870000089 - 2.9 CEU's awarded**

**(Recommended Prerequisite Training: FDX Console and DEVO Series FPD'S)**

The FDR Go and Go Plus course is designed to provide a system level approach to Digital Radiography Mobile X-Ray system installation and maintenance. Beginning with an overview of the system architecture, we train the engineer to install and setup the mobile X-Ray System. For system maintenance, our didactic training and laboratory work entails complete system adjustments, alignments, and calibration, fault isolation to the field replaceable units, reviewing the battery removal and replacement procedures, interfacing to the FDX console to the hospital network and preventive maintenance. (Classroom Lecture/PowerPoint and Lab, Written Test).

**Cristalle FDR MS-3500 System - Course # 800044613 - 2.2 CEU's awarded**

**(Recommended Prerequisite Training: FDX Console)**

The purpose of this course is to provide working knowledge geared toward installation, configuration, calibration, troubleshooting and maintenance of the FDR-MS-3500 Cristalle System and the various peripheral components associated with it such as the FDR-3000AWS Console.

**FDR Persona U (X-ray U-arm system) - Course #: 870001714**

**(Recommended Prerequisite Training: FDX Console and FDR DEVO Series FPD'S)**

The purpose of this course is to provide working knowledge geared toward installation, configuration, calibration, troubleshooting and maintenance of the Persona U (X-ray U-arm system). The course curriculum will also provide details for setup of X-ray Control (XCON/SpeedLink) as it relates to the Sedecal x-ray generator.

**FDR Clinica - Course # 800046429 – 1.5 CEU's awarded**

**(Recommended Prerequisite Training: FDX Console and FDR DEVO Series FPD'S)**

The purpose of this course is to provide working knowledge geared toward installation, configuration, calibration, troubleshooting and maintenance of the FDR Clinica and the various peripheral components associated with it (table, floor mounted tube stand, and wall stand). The course curriculum will also provide details for setup of X-ray Control (XCON/SpeedLink) as it relates to the FDR Clinica x-ray generator.

**FDR D-EVO Suite FSx /OTCx - Course # 870001520 - 2.4 CEU's awarded**

**(Recommended Prerequisite Training: Basic X-ray, FDX Console and DEVO Series FPD's)**

The purpose of this course is to provide working knowledge geared toward installation, configuration, calibration, troubleshooting and maintenance of the D-EVO Suite FSx/OTCx and the various peripheral components associated with it. The course curriculum will also provide details for setup of X-ray Control (XCON/SpeedLink) as it relates to the CPI CMP 200 DR and the Polydoros GEN RF x-ray generators.

**FDR D-EVO Suite II - Course # 800042900 - 2.4 CEU's awarded**

**(Recommended Prerequisite Training: FDX Console and FDR DEVO Series FPD'S)**

The purpose of this course is to provide working knowledge geared toward installation, configuration, calibration, troubleshooting and maintenance of the D-EVO Suite II and the various peripheral components associated with it. The course curriculum will also provide details for setup of X-ray Control (XCON/SpeedLink) as it relates to the Polydoros GEN RF x-ray generator.

**FDR Visionary Suite DR-ID 900 system - Course # 800046430 - 2.7 CEU's awarded for both weeks**

**(Recommended Prerequisite Training: FDX Console, FDR DEVO Series FPD'S)**

The purpose of this course is to provide working knowledge geared toward installation, configuration, calibration, troubleshooting and maintenance of the FDR Visionary Suite and the various peripheral components associated with it. The course curriculum will also provide details for setup of X-ray Control (XCON/Speed Link) as it relates to the FDR Visionary Suite device, Visionary Suite X-ray generator and the FDX Console.

In week 2 we cover installation, setting to work adjustments alignments and calibrations, and maintenance of the FDR Visionary Suite advanced applications. This includes the Tomosynthesis application; Energy subtracted imaging, Linear Tomography and the Digital Scoliosis stitching function.

**Fujifilm Mobil Surgical C-arms - Course # 870001713**

**(Recommended Prerequisite Training: Basic X-ray training)**

The Fujifilm Mobile Surgical C-arms course is designed to provide a system level approach to our Digital Fluoroscopy Surgical C arm system's installation and maintenance. We train the engineer to install and setup the Persona C, Persona CS and FDR Cross Mobile surgical systems. For systems maintenance, our didactic training and laboratory work entails complete system adjustments, alignments, and calibration, fault isolation to the field replaceable units, reviewing the major component removal and replacement procedures, interfacing the operators console to the hospital network, and preventive maintenance.

**Persona R/F Radiography Fluoroscopy system - Course # 870001521 - 2.3 CEU's awarded**

**(Recommended Prerequisite Training: Basic X-ray and DEVO Suite II training)**

The Persona R/F Radiography Fluoroscopy system course is designed to provide a system level approach to our Digital Fluoroscopy system installation and maintenance. Beginning with an overview of the system architecture, we train the engineer to install and setup the Radiography Fluoroscopy System. For system maintenance, our didactic training and laboratory work entails complete system adjustments, alignments, and calibration, fault isolation to the field replaceable units, reviewing the major component removal and replacement procedures, interfacing to the operators console to the hospital network and preventive maintenance. (Classroom Lecture/PowerPoint and Lab, Written Test).

**VXR Veterinary system - Course # 800050056 – 1.5 CEU's awarded**

**(Recommended Prerequisite Training: Basic X-ray training)**

The VXR Veterinary system course is designed to provide a system level approach to our Digital Veterinary X-ray system installation and maintenance. Beginning with an overview of the system architecture, we train the engineer to install and setup the VXR System. For system maintenance, our didactic training and laboratory work entails complete system adjustments, alignments, and calibration, fault isolation to the field replaceable units, reviewing the major component removal and replacement procedures, interfacing to the operators console to the facility network and preventive maintenance. (Classroom Lecture/PowerPoint and Lab, Written Test).

**FDR SE Lite system - Course # 870001691**

**(Recommended Prerequisite Training: Basic X-ray training, FDX Console Training)**

This training package is designed to educate Service Engineers in the system Specifications, system Components, system Operation, Calibration, Planned Maintenance, Troubleshooting and Service of the FDR SE Lite Flat Panel Detector system. Engineers taking this training should have already taken the X-ray Basics, and the FDX Console Training courses. (Computer based training on line, written test).

**FUJIFILM HEALTHCARE AMERICAS  
DISTRIBUTOR / CUSTOMER SERVICE TRAINING AGREEMENT**

**As a condition to attending a FUJIFILM Healthcare Americas (HCUS) specialized service training course, I, \_\_\_\_\_ (" the attendee") an employee of \_\_\_\_\_ agree to the following terms and conditions:**

1. All information (including but not limited to data, know-how, trade secrets, methods and procedures, designs) provided to the Attendee in connection with the service training course, are proprietary to HCUS and / or Fuji Photo Film Co., Ltd. (collectively "Fuji").
2. This information shall remain the property of Fuji and shall only be used by the Attendee in connection with the operation, service, repair or maintenance of Fuji brand medical diagnostic imaging equipment.
3. Attendee understands the proprietary nature of the information and agrees to take every reasonable precaution to protect such information from disclosure to third parties. Attendee will not copy or reproduce any written material provided to Attendee in connection with the service training course.
4. Attendee agrees to indemnify HCUS against any losses incurred by HCUS, including reasonable counsel fees resulting from the breach of any provision of this agreement by Attendee.
5. In the event that the Attendee's employer's equipment is sold, destroyed or otherwise disposed of, the above described information shall be returned immediately to HCUS.
6. The Distributor shall comply with all export and re-export restrictions and regulations imposed by the government of the United States and other relevant countries or regions ("Export Restrictions").
7. The Distributor shall not knowingly transfer, directly or indirectly, any restricted software or technical data received hereunder or the direct product of such data, to any country or region or to those entities or persons listed on the website of Bureau of Industry and Security of U.S. Department of Commerce as Denied Persons List, Unverified List, Entity List, Specially Designated Nationals List and the Debarred List; identified as an embargoed destination or country in the Export Restrictions, unless prior written authorization is obtained from HCUS and each appropriate United States or other government agencies.
8. Attendees will not solicit, or assist in any way in the solicitation of, business from any of HCUS or its affiliates' customers, either for their employers or their own benefit or the benefit of anyone other than HCUS, unless the business being solicited is not competitive with the services or products provided by HCUS or its affiliates.
9. I understand all of the requirements and responsibilities that come with FUJIFILM Healthcare Americas service training and have read the above conditions and cautions on the export control of the United States and by signing below, confirm to follow the instructions.
